

About Edgecomms

Edgecomms is **Malaysia's 1st Fixed Virtual Network Operator (FVNO)** by riding on Mobile Network to offer various fixed and mobile convergent services. We pride ourselves as the **ONLY** alternative fixed line provider who has nationwide coverage with superior voice quality and excellent customer service all offered at lower price. Our value propositions are to provide customers a **choice** to choose their fixed line provider, **affordable** service and **customised** package to suite their needs.

Edgecomms Sdn Bhd was incorporated in 27 April 2006 with a paid up capital of RM1,450,000. We had been awarded MSC status in May 2006, and qualified pioneer status in July 2006. Edgecomms is an ASP licence holder (ASP 234/2008).

What is FVNO ?

Fixed Virtual Network Operator (FVNO) is a company which provides fixed line services without having its own network infrastructure. The FVNO will ride on existing network provider to use its network infrastructure in order to offer its own fixed line services.

In our case, we partner with Malaysia's largest mobile operator and uses its network infrastructure to offer various fixed and mobile convergent services
